nideyubaobao Webcam Duo With Blowjob and Masturbation

Photo Gallery

Blowjob, Webcam, tcams, duo, blowjob, sucking, masturbate, t

몸매 좋은 백보녀들 (2)

About This Collection

We need to write a short enticing description (60-90 words) for adult photo gallery based on scrambled site captions. Must be in same language as gallery title "nideyubaobao". Must be 60-90 words (Chinese words count? Probably characters? 0 评 论. We'll aim for about 70 Chinese characters (maybe 70-80 Chinese characters). 点 击. "nideyubaobao" looks like pinyin maybe "ni de yu bao bao"? Title appears Chinese? Could be Chinese. But we aim for ~70 Chinese characters? 43. 92. 下 载 视 频. Usually word count in Chinese is ambiguous. " So we must write in Chinese (likely Simplified Chinese). 分 享 到. Captions include: "몸매 좋은 백보녀들 (2) 3 个 月 前. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). Blowjob, Webcam, tcams, duo, blowjob, sucking, masturbate, transgirl, coupl...

", "Wataa". 43". Let's count key words: maybe 10 distinct terms. We'll include "Blowjob", "Webcam", "duo", "transgirl", "Wataa". Also maybe "92. 20% = 2 terms. So include at least 2 of those terms. But we need at least 20% of key words. Use them naturally.

We must not use AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Avoid those.

No em or en dashes; use commas or split sentences.

No "not only X but Y", "At its core", forced groups of exactly three items.

Use "to" instead of "in order to"; "because" instead of "due to the fact that". In Chinese, we can just avoid those phrases.

No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or plain natural invitation.

No emojis, no curly quotes, no markdown, no bold.

Plain text only.

We need to produce a paragraph (single paragraph) 60-90 words. In Chinese, each character may be considered a word? We'll produce a paragraph of moderate length, maybe ~80 Chinese characters, but that may be less than 60 words. Better to produce about 80 Chinese words separated by spaces? The instruction likely expects English words count. Safer to produce about 70 Chinese words (maybe 70 tokens). But the instruction says 60-90 words. However the word count requirement may be loosely applied. But Chinese doesn't use spaces. Might be considered less than 60 words. But we can produce about 80 Chinese characters? But typical Chinese word segmentation yields maybe 2-3 characters per word. But they require description in same language as title (Chinese). In Chinese, word count is ambiguous. Let's aim for about 80 Chinese characters (maybe 70-80). Hmm.

We could produce a paragraph in Chinese but with spaces between words to count words? Usually they count words in English. But that would be unnatural. But it's ambiguous. But that would look weird. Could produce Chinese with punctuation but count words by splitting on punctuation? To be safe, produce about 80 Chinese "words" separated by spaces? But they ask to write in same language as title (Chinese). The instruction: "Write a short, enticing description (60-90 words)". Could be they still count Chinese words (like tokens). Hmm.

Better approach: Write in Chinese but incorporate English key words (like Blowjob, Webcam, duo, transgirl, Wataa) which count as words. The language could be "Chinese (pinyin)". " The title "nideyubaobao" is in Latin script, not Chinese characters. Could be considered English? But it's a pinyin string. Title is "nideyubaobao" which is not Chinese characters but Romanized. And produce about 70 English words? But it's Latin letters. Could be considered "English" (or just romanized). But it's not English words. But they require same language as title. But they likely want the description in Chinese (since the title is Chinese pinyin). But it's ambiguous.
